

FINAL ANNOUNCEMENT Aspectro2023

The fifth Meeting on Astrophysical Spectroscopy-A&M DATA will be held from September 12 to 15, 2023 at Palić, Serbia.
Venue: "Hotel Prezident – Palić".

The Conference program and Book of abstracts and contributed papers of conference are available on our website (<http://aspectro2023.ipb.ac.rs/index.htm>).

Authors with poster presentations are kindly asked to prepare their poster presentations in as one page .pdf or .pptx files and to send material to the Organizers of AsSpectro2023 (aspectro.conf@gmail.com) with deadline September 11, 2023 at noon.

An award will be given for the Best Poster presented at the conference. Only PhD students and young postdoc researchers (7 years after obtaining the PhD) are eligible for the award. The winner will be announced at the conference closing ceremony. Posters must be submitted prior to the beginning of the conference in digital form. Posters will be presented via screen so landscape mode (horizontal orientation of a poster) is required.

Just a reminder:

In cooperation with the Universe journal, during the meeting we will organize a Special Session:

"Astronomy and Earth Observations: multi-instrumental approach and theory".

Selected lectures and posters presented at this Special Session will be published in Universe, as a Special Issue: "New Insights into Astronomy and Earth Observations: From Observations to the Theory"

Also we are going to publish selected papers presented at the conference in the journal "Contributions of the Astronomical Observatory Skalnaté Pleso (CAOSP)" as a Special Issue "A&M DATA - Astronomy and Earth Observations".

Thank you!

With best regards,
Organizers of AsSpectro2023
